English

Dont listen to salty people with 0.2 hours on record. In order to learn control you need at least half hour or more.

It took me 1.7 hours to reach third level.

Because of high difficulty and level desing that make game orginal and will make you spend hours for each level (before nerf), but at the end there will be a glorius feeling like beating boss in Dark Soul (im first person who beat game if we dont count developer)

Graphic and animation fit game perfect.

Overall game is just amazing that is hard to belive price is so low
