About This Content

Spanning the North Wales Coast Line from Crewe to Llandudno, and also featuring the iconic Conwy Castle across 67 miles of cross-border railway line, Train Simulator's North Wales Coastal route marries seaside views with both local and inter-city services from Arriva Trains Wales and Virgin Trains West Coast.

Ever since the Act of Union in 1801, which saw Ireland become part of the United Kingdom, people have strived to improve the connection between the two isles. In the early 19th Century, a combination of horse-drawn transport and sailing ships was the only option; that was until the 1840s, when the Chester and Crewe Railway and later, the Chester and Holyhead Railway were incorporated.

The full line was soon completed in 1848. Irish Mail would regularly work the line from London to Holyhead, and the LNWR, being in control of the West Coast Main Line and the line to Holyhead soon after, saw an opportunity for a spike in tourist traffic. Trains were put on to serve seaside resorts like Rhyl, Colwyn Bay and along the Llandudno branch, setting in stone the line's popularity. This tale would continue through the Big Four, British Railways and Sectorisation eras, and despite freight being less common today, the line has remained a local and long-distance passenger haven with over 90 trains a day.

Visit the seaside today with North Wales Coastal: Crewe – Llandudno, featuring the Virgin Trains BR Class 221 "Super Voyager", and Arriva Trains Wales' BR Class 158 "Express Sprinter" and BR Class 175 "Coradia" DMUs.

RPGMaker done SO right!

PROS
-Great mapping
-Lovely soundtrack
-Meaningful skill point allocation\/Character building
-Side quests that enhance the story and don't feel "grindy" at all
-Monster nodes that allow you to turn off random encounters (thank god)

CONS
- None, really...I mean, the dialogue was a little cheesy at times - but that's more a personal gripe than anything, ahaha!

Pick this up A.S.A.P - especially with the winter sale price!. i've actually enjoyed diz game here! brings back memories of Extreme G on tha N64 and it has similar controls to Extreme G and plays like it too so yea i do recommend tha game if u're an old school gamer like me who had experience with racing games in tha 90's similar to Flashout 2 yo. :P. This is very nice game! My younger sister plays that for hours using family sharing :D. Buggy and too much useless information in the skill tree.. im not sure what happened.. but i bought this DLC and suddenly all the characters names are in japanese and not in english.. it was fine before i bought the DLC. Other than that though the DLC is neat. you can kinda talk to neptune and she responds in the typical nep way.. sadly not voiced in english though so cant really reccomend because her japanese voice can be like nails on a chalk board at some points.. Very cute but SUPER short; sort of "The Room" by way of Fisher Price.. Let's see:
-Is this game a platformer? Check.
-Does it have tight controls? Check.
-Does it have an amazing 8-bit soundtrack even Shovel Knight would be surprised? Check.
-Does it have cute and very detailed pixel art? Check.
.
.
.
-Do I need to buy this even though I sucked at Super Meat Boy? ABSOLUTELY CHECK.. Excellent RTS game. I'm not one for old-timey graphics but... this game is good. It actually has unit physics as well!

Oh my God I love this game so much! Yes it's short, but it's also priced accordingly. If you ever played a CGA adventure game you will absolutely love this!. Not bad relax Indie game :). borderline unplayable. Poorly made, pretty much the same as 13 but costs £30 more? The only improvement was the 3D engine which isn't even that great... It's pretty dang fun. Not easy either. Getting the hang of it takes a few minutes and usually dying a time or two. It's got a lot of potential, and it's improving. I look forward to seeing where this goes. Throwing grenades, and using some of the automatic weapons rock. Loot and mow down hoards of creatures, fly around a find things to loot and fight? I'll have more please.

It has it's bugs that need fixing. Some minor improvments as well, but over all it's fun. I'm looking forward to some updates..
Guys at first you think its boring but , you need to play it with your friend at 0:00 than its ♥♥♥♥ing nice. :D
Look at my profil there is a screenshot from my frist Goal.
Best Game ever 10/10. 8\/10

PRO: Has a really good plot that will keep you on the edge of your seat with one of the most shocking endings i'v ever seen in my live. It's worth penny and you will not regret getting in.

CON: There's not much wrong with this game if you ask me, but one thing that is bad about it is how short it is. I was getting really into it, the story had me hooked till the very end and all i could ask for is a sequel.
. Amazing when you're building and riding with friends. With future updates, this will be even better!. Awesome fun casual dungeon crawling RPG with multiple parties and a lot of customization. You can change a ton of settings at the start of the game (spawn rate, world size, amount of dungeons, leveling rate, etc). Its very user friendly. I haven't beat it yet but I still play from time to time.. Please fix the bug, this game is awesome but some lag on game make upset.
thanks
